

OPTO Meeting For Young Researchers

Conference web-site: <http://osa.fizyka.umk.pl/OPTO/>

Conference venue: Institute of Physics, Nicolaus Copernicus University, ul. Grudziadzka 5, Torun, Poland, May 12- 15, 2010.

The goal of OPTO Meeting for Young Researchers is to exchange scientific experience and to help young students to make first steps towards their future careers in optics and photonics. The conference addresses all branches of optics topics such as optical metrology, laser in life science, industrial and medical applications are most welcome. Plenary talks on each of these themes will be invited. Professional training from making the most of your presentation, interview strategy will be given. Moreover during the meeting we would like to celebrate the 50th anniversary of the laser which was first demonstrated in 1960. We plan sessions devote to the laser applications and hit the target game. Finally what is the most important conference is held in a friendly atmosphere of young people gives an opportunity for new friendships and for developing interpersonal skills in giving presentations.
