

XIX Polish-Slovak-Czech Optical Conference on Wave and Quantum Aspects of Contemporary Optics

Conference web-site: <http://www.psc2014.pwr.wroc.pl>

Conference venue: Wojanow Palace, Poland, 8-12 September 2014

For almost 40 years, the Polish-Slovak-Czech Optical Conferences provide a vibrant forum for reporting the latest advances in research and stimulate an exchange of knowledge and ideas within the academic and industrial communities of Poland, Czech Republic, and Slovakia. The conferences are organized every 2 years in rotation between the three countries. It is a great pleasure to invite you to attend the XIX Polish-Slovak-Czech Optical Conference organized by the Institute of Physics, Wrocław University of Technology, Poland. It will be held from Monday 8th to Friday 12th of September, 2014 in Wojanów Palace, a modern SPA and conference centre situated near Jelenia Góra. The conference will offer invited and regular presentations in oral and poster sessions as well as social events. We welcome contributions on essentially all aspects of optics, including:

- quantum and nonlinear optics
- wave and geometrical optics
- optical communication and information processing
- lasers and laser-assisted manufacturing
- life sciences and health
- lighting and displays
- metrology and sensors
- design and manufacture of optical components
- education for research and training in optics.

Wojanów Palace with its relaxed atmosphere will provide an ideal setting for a stimulating and enjoyable meeting. Please join us for this exceptional event.
