

Invitation for European Conference on Integrated Optics 2016

Dear Colleagues,

On behalf of the Steering Committee I would like to encourage you to present the results of your research during 18th European Conference on Integrated Optics (ECIO 2016) which will be held in Warsaw, Poland on 18-20 May 2016. The main aim of ECIO 2016 is to provide a forum where researchers from both industrial and academic communities of integrated optics and nanophotonics can exchange their new ideas and latest findings. The main ECIO 2016 scientific topics cover all aspects of integrated optics, including research on optical materials, devices and systems, addressing a broad range of applications, like optical communication, signal processing, bio-photonics, sensors, instrumentation, lighting and displays. Full list of topics can be found at the conference website <http://ecio2016.com>.

If you would like to share the recent results of your research with the integrated optics community, submit a paper at <http://ecio2016.com>. Selected post-conference papers will be published in a special edition of peer-reviewed IET Optoelectronics journal.

Please note that the deadline for abstract submissions has been postponed until 7th March 2016.

Traditionally, apart from regular talks, also invited lectures will be given by renowned experts in the field. Please, check the full list of invited speakers at the conference website <http://ecio2016.com>.

The conference will be also assisted by 24th Optical Wave and Waveguide Theory and Numerical Modelling Workshop (20-21 May 2016) and a technical exhibition.

The conference fee is 350 EUR (200 EUR for students) for early bird registration and covers admission to scientific sessions and exhibition areas, conference materials, lunches and welcome reception.

We are looking forward to seeing you in Warsaw!

Yours faithfully,

Ryszard Piramidowicz
Conference Chair
Warsaw University of Technology
