

OPTO Meeting For Young Researchers

Conference web-site: <http://osa.fizyka.umk.pl/OPTO/>

Conference venue: Institute of Physics, Nicolaus Copernicus University, ul. Grudziadzka 5, Torun, Poland, May 11- 14, 2011.

We continue tradition of SPIE Meeting started in Wroclaw in 2006. Each year, more and more participants from a number of countries are attracted by a chance of visiting Torun sharing knowledge.

The aim of the conference is to encourage young people to exchange scientific experience, to make new contacts widening their personal network. Invited lectures, seminars, workshops and posters will cover all branches of optics e.g. quantum optics, optical imaging, light sources or medical applications. Finally what is the most important conference is held in a friendly atmosphere of young people gives an opportunity for new friendships and for developing interpersonal skills in giving presentations.
