

Laser Optics 2014

Conference web-site: <http://www.laser-optics-berlin.de/en/LaserOptics/Partner>

Conference venue: Berlin, Germany, March 18-20, 2014

Laser Optics 2014 is taking off with a new concept and brings two key technologies together. In the future, it will position itself as a platform for joint developments and applications of optical technologies and microsystems technology.

Users, developers and researchers will profit from ideal conditions for intelligent networking. Ideas will meet knowledge, supply will meet demand.

The approved concept of laser optics is based on the following 3 pillars:

- Exhibition
- Conferences
- Forum
