

III Symposium - Downloads

Below you can find plenary session presentations.

- John Dudley, IYL 2015 President,

"1000 years of optics, 50 years of solitons"

- Eugen Arthurs, CEO SPIE

"Photonics and Politics"

- Gerald Farrell, Dublin Institute of Technology,

"Optical Fiber Sensing: Sensing solutions from the macro world to the micro world"

- Philip Russell, 2015 OSA President,

"Gas, glass & light: Enhancing light-matter interactions in microstructured fibres"

- Francesco Baldini, 2015 SIOF President,

"Optical biosensing in biomedical field"

- Grzegorz Sobolewski, Wrocław University of Technology,

"Ultrafast fiber lasers based on graphene and other nanomaterials"

- Michał Makowski, Warsaw University of Technology,

"Pico-projection based on real-time computer holography" If you are looking for Symposium photos [click here](#).
