

Invitation for LIGHT2015 meeting

LIGHT2015 is a European project funded through the European Union's Horizon 2020 research and innovation programme of the European Commission. It aims to promote the importance of photonics to young people, entrepreneurs and the general public in all Member States of the EU during the International Year of Light and Light-based Technologies 2015 (IYL 2015).

LIGHT2015 activities will include LIGHTtalks, a series of inspirational events, which will take place throughout the European Union in different cities at different times for the whole duration of the project in order to bring photonics closer to students and entrepreneurs. LIGHT2015 meeting
